ABOUT ME

I am an aspiring web developer from Davao City, Philippines. Currently, I am an undergraduate student at the University of Mindanao. Eager to learn new things to develop new technology in the tech industry. Web development and Android application development are all areas in which I excel. I am dedicated to continuing to gain knowledge.

WORK EXPERIENCE

Freelancer - Data Annotation ModQA

2020-2024

Remotasks

- Proficiently used annotation tools and platforms, such as Labelbox and Image Annotator, to annotate and manage datasets effectively.
- Efficiently annotated large datasets for machine learning models, including labeling images with bounding boxes and image segmentation to enhance model accuracy and performance

PROJECTS

Capstone Project

AutoParts: A Mobile Android Repair and MotorParts Shop Finds App for Motorcyclists Utilizing TensorFlow with Geolocation.

- Develop an image-processing app for motorcycle parts that allows users to identify the specific parts using TensorFlow.
- Locate a motorcycle shop or a mechanic depending on the user's needs using Geolocation.

Other Project

Web-Based Online Apartment Reservation System Using Laravel

- Room Reservation: Allows users to book available rooms.
- Monthly Payment Recording: Tracks and records user payments every month.
- Available Room Listings: Displays a list of available rooms across various locations.
